The Academy of Hotel and Catering Industry is a non-public College, established in 1993 which educates people on the basis of Ministry of National Education's permission (dr Roman Dawid Tauber, the present Rector was the one who took the initiative). A rich Programme of Undergraduate, Graduate and Post Graduate studies is combined with attractive Traineeship Offers (both national and foreign). The purpose of our educational activities are to prepare Management Staff in the area of Hotel Management, Restaurants, Recreation Facilities and Travel Agencies all over the world. That is the reason why we put emphasis on a harmonic combination of theoretical preparation and practical skills. We are aware of the fact that the education of future Managers requires some Education Programme's adapting to the continually changing branch. Teaching Foreign Languages is also an integral part of the education. Students can choose 3 languages while a sign language is obligatory. The Academy also provides an opportunity to study other foreign languages free of charge thus professional linguistic competences gained. Our Academy is respected by all employers and the vast skills gained simplify obtaining an attractive job.

The Academy of Hotel Management and Catering Industry is an active member of LLP Erasmus Programme – both staff and students have a chance to exchange with western Universities. We have academic cooperates with selected reputable hotels and restaurant, mainly from the United Kingdom, Ireland, Greece, Spain, USA, Germany, Italy and Switzerland and we try to gain new contacts every year and at the same time eliminate the ones which have not fulfilled our requirements.

Taking part in international cooking contests and shows all over the world (Spain, Peru, Mexico, Ecuador, Brazil, Argentina, Portugal, Cuba, United Arab Emirates) is the next great advantage of studying at our Academy. Since Academy of Hotel Management and Catering Industry is a member of AEHT (European Association of Hotel and Tourism Schools in Luxemburg), we take an active part in International Conferences and meetings organized by this association.
